16. **Deer Lagoon:** There are two common entry points. Both are within quiet residential areas. Parking is very limited and visitors should be especially careful to park clear of driveways and traffic and to respect the privacy of local residents and private property. One access is at the south end of Deer Lagoon Road, where a trail continues south to the lagoon. This wooded path is an excellent area for many species of passerines. The other access is on Sunlight Beach Road. Park at the county-owned access on the south side between house numbers 2440 and 2436. Walk back across Sunlight Beach Road, and between houses to get access to the dike on the east side. Of the two access points this one has the least parking space. The beaches and yards are privately owned. Deer Lagoon highlights are waterfowl and shorebirds during migration.
